

DORI

DORI allows boaters to prioritize safety without compromising performance. Our guard does not decrease efficiency while stowed, and only deploys when needed.

It provides peace of mind for instructors, parents, and boaters.

After 1 year of research & development, DORI will enter the market with a two-pronged approach:

B2B

- Sailing & boating programs in the US
- 6.3k available market size
- 15% adoption rate

B2C

- Partner with marine retailers to reach consumers
- 700k available market size
- Aim for 1% adoption rate

\$750 retail price; \$450 margin
From a \$500k initial investment DORI will be profitable by year 3
